FEMINISTS AROUND THE WORLD *24h to end violence*

JOIN THE 24-HOUR GLOBAL MOBILIZATION AGAINST GENDER-BASED VIOLENCE

Feminists around the world: 24h to end violence, launched by the Générations Féministes and #NousToutes collectives, is a global feminist digital meeting on the theme of gender-based violence. It will take place from June 23 to 24, 2021 and will be the culmination of the #StopTalkingStartFunding campaign. The goal of this global campaign is to put pressure on the governments that will be attending the Generation Equality Forum, so that they take action to end gender-based violence.

AT THE HEART OF OUR CAMPAIGN ARE TWO KEY DEMANDS:

1. Governments must allocate at least 0.1% of their gross domestic product to the fight against sexual and gender-based violence;
2. Governments must reinforce the support of victims of sexual and gender-based violence at all stages of their journey and facilitate their access to justice.

WHY FEMINISTS AROUND THE WORLD: 24H TO END VIOLENCE?

For 24 hours, let's call on the heads of state who will meet in Paris at the end of June to increase funding allocated to the fight against gender-based violence and to improve access to justice for victims.

FACTS SPEAK FOR THEMSELVES!

The testimonies of women (cis and trans), all trans and non-binary people, especially on social media, have revealed that gender-based violence spares no one and is rampant in all countries. This 24-hour world tour will enable us to denounce its systemic nature and to make visible the specific types of violence faced by women and gender minorities around the world.

IT'S TIME TO PUT MONEY ON THE TABLE!

From June 30 to July 2, heads of state will gather in Paris for the Generation Equality Forum (GEF) to discuss gender equality. Some political leaders claim that the fight against violence is a top priority, but no country has really given itself the means to put an end to sexual and gender-based violence. For the GEF to live up to its ambitions, it is time for governments to put an end to their speeches and make significant financial commitments. In other words : #StopTalkingStartFunding!

FEMINISTS OF ALL COUNTRIES, LET'S DO THIS TOGETHER!

Feminists around the world: 24h to end violence will be an opportunity to unite and support feminists from all over the world, in the face of a permanent lack of resources and a sanitary crisis affecting our daily actions on the field. Together, we want to make our voices heard, all our voices.

Governments will not commit to the radical and transformative actions needed to eradicate violence without a feminist pressure of international scope. Let's be as loud as possible for 24 hours to be heard, let's build pressure, so that governments have no other choice than to put money on the table to end gender-based violence!

WHO ARE WE?

At the origin of the #StopTalkingStartFunding campaign, two collectives:

The Collectif Générations Féministes gathers more than 50 French associations with diverse identities, through an inclusive, intergenerational and intersectional approach. In solidarity with feminist movements around the world, the Collectif Générations Féministes advocates for the adoption of a feminist approach to public policy at the national and international levels.

#NousToutes is a French movement to fight against sexual and gender-based violence. In 2019, the collective organized the largest feminist mobilization in the country's history. More than 100,000 people demonstrated against masculine violence. In 2020, during the lockdown in France, #NousToutes trained 100,000 people online against sexual violence.

This campaign was built through conversations and consultations with feminist networks and organizations from different regions of the world.
